C-H-Reynolds advised Dussmann Technical Solutions on the acquisition of automatic Klein GmbH

Establishment of the business unit 'Dussmann Industrial Automation'

Frankfurt / Main, April 2023: As per April 1, 2023, Dussmann Technical Solutions acquired the business operations of automatic Klein GmbH, based in Essen. The company has since been operating under the name Dussmann Industrial Automation GmbH and forms the foundation for the new business unit 'Dussmann Industrial Automation' which focuses on plant control systems and process automation within the company's technical plant engineering capabilities.

With revenues of around EUR 2.8 billion and 66,000 employees, Dussmann Group is a family-owned, internationally active multi services provider. With a strong focus on innovation and technology, the company develops, among others, tailor-made concepts and solutions for its customers in the areas of facility management, food services, and technical plant engineering.

Founded nearly 60 years ago, automatic Klein GmbH has extensive experience in planning, design, assembly, and commissioning of control systems for the automation of industrial processes. The long-standing management team will remain in place in the new company as well.

"The acquisition of automatic Klein's expertise is a very important step for us, as it expands our capabilities in a strategically important area", commented Dr. Tino Weber, Managing Director of Dussmann Technical Solutions.

The C-H-Reynolds team, consisting of Stefan Constantin (Partner) and Markus Kluge (Director), exclusively advised the Dussmann Group in the M&A process.

Further information on the transaction can be found in the related press release issued by the Dussmann Group
